Meg:

A few things:

1. Ty says he got the top sheet this morning. I thought we had told Fulco to stop sending out renewal notices. What do you know about this?

2. Second sheet is the estimate from Wildwood Press (the people who normally do our letterheads). How does this compare with others you know of or could guess about? The 7-10 days doesn't thrill me either. This is all taking lots longer than I hoped it would.

3. Then comes the latest version of JB's letter, with my mouthing off attached. The board is meeting tomorrow night to finalize this, so anything from you and Shirrel before that would be helpful.
